## Chopped Strands for PP/PA

108 Chopped Strands for Thermoplastics are coated with a silane-based sizing, compatible with PP resin.

116 Chopped Strands for Thermoplastics are coated with a silane-based sizing, compatible with PA resin.

108/116 is designed for extrusion and injection molding processes, and is widely used in electric appliance, automotive, medical appliance, and sporting goods.

### Product Features

- § Uniform appearance , low static and good flowability.
- § Minimal glass bonding with resins, excellent surface appearance.
- § Super high impact strength.

### Identification

Example	ECS13-4.5-108/116
Type of Glass	E
Chopped Strands	CS
Filament Diameter	13
Chop Length, mm	4.5
Size Code	108

### Technical Parameters

Filament Diameter (%)	Moisture Content (%)	Size Content (%)	Chop length (mm)	Choppability(%)
ISO 1888	ISO 3344	ISO 1887	Q/JS J0361	Q/JS J0362
± 10	≤ 0.10	0.50± 0.15	4.50± 1.0	≥ 98

### Packaging

\* The product can be packed in:

Bulk bags, heavy-duty box, and composite plastic woven bags.

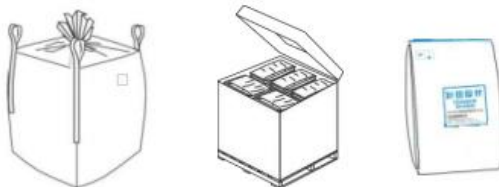

For example:

Bulk bags can hold 900kg-1000kg each;

Cardboard boxes and composite plastic woven bags can hold 15kg-25kg each.

### Storage

Unless otherwise specified, fiberglass products should be stored in a dry, cool and rain-proof area. It is recommended that the room temperature and humidity should be always maintained at 15℃~35℃ and 35%~65% respectively.

### Bulk bag

Length mm (in)	1030 (40.55)
Width mm (in)	1030 (40.55)
Height mm (in)	1000 (39.4)

### heavy-duty box

Length mm (in)	1120 (44)
Width mm (in)	1120 (44)
Height mm (in)	1050 (41.3)

### Composite plastic woven bag

Length mm (in)	850 (33.46)
Width mm (in)	500 (19.68)
Height mm (in)	120 (4.72)
